9 AM–5 PM

**Thursday,
November 12**
Huntington
Convention
Center
9 AM–5 PM

The IAM Expo is a premier event spotlighting cutting-edge technologies that are reshaping the manufacturing landscape. Explore innovations in AI, robotics, additive manufacturing, advanced materials, EVs, aerospace, and more—while engaging with industry leaders driving the next wave of industrial transformation.

This year, IAM Expo is proud to collaborate with the AMI Plastics World Expos, bringing two powerful events together under one roof. This partnership offers attendees access to a broader network of professionals across advanced manufacturing and plastics, plus entry to co-located expos including Compounding, Plastics Extrusion, Recycling, and Polymer Testing. The collaboration enhances opportunities for cross-industry learning, innovation, and sustainable solutions—making Cleveland the place to be for forward-thinking professionals.

Join us for a dynamic experience that bridges industries, accelerates innovation, and builds global connections.
